

WHO ME

Helpline 0800 917 7650

Alcoholics Anonymous

is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism. The only requirement for membership is a desire to stop drinking. There are no dues or fees for AA membership; we are self-supporting through our own contributions.

AA is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy; neither endorses nor opposes any causes. Our primary purpose is to stay sober, and help other alcoholics to achieve sobriety.

Who Me?

Not all drinkers are alcoholics. Many people can drink normally and have a normal life. Alcoholics Anonymous has nothing to offer these drinkers. For them, alcohol is not a problem.

This message is for those of us who do have a problem with alcohol and crave it even though it is hurting us badly..... and that's just the start.

No alcoholic starts as a down-and-out. It is our drinking and what it makes us do that in time may lose us our homes, families and jobs. Accidents, jail sentences, hospital admissions, suicides and murders are often linked to alcoholic drinking. We know because we are alcoholics.

WE KNOW what it is like to give up drink, and then wait in agony for the off-licence or the pub to open.

WE KNOW what it is like to spend money that we haven't got; to be driven to steal; to hide drink around the house; to wake up not knowing where we have been or what we have done, or knowing only too well.

WE TOO have felt those terrible feelings of loneliness, despair, depression, shame and self-hatred that this illness brings.

Those of us who have tried to control our drinking have found that we cannot. We behave much like other people while we stay away from drink, but if we take any alcohol at all it is difficult or impossible for us to stop.

We have lost control of our drinking.

Alcoholism means that when we drink we want more of the very thing that hurts us and makes us ill and lonely. By drinking more we make things worse and worse. We can lose everything; our family, friends, home and job, and we don't really know why we are doing it, just that we want alcohol. This is why an alcoholic can't be a social drinker and just have one or two.

Many of us found it hard to understand that for us it was the first drink that did the damage. We argued that we never got drunk on one drink; it was the fourth, or the eighth, or the sixteenth, which was the culprit that did the damage. If only we had just had one or two we would have been all right.

The fact was that we could not stop at one or two. Once we had taken the first drink, our power of choice had gone. Even if, occasionally, we managed to control our drinking, that very control made us think that - next day or next week or next month - we could handle alcohol. We can't. It is the first drink that destroys our power of choice. No matter how small, or how innocent or tempting the first drink seems we stay away from it - a day at a time.

One of the unhappiest people in the world is the chronic alcoholic who really wants to enjoy life as he or she once did,

but who can't picture life without alcohol. He is obsessed by the idea that one day he will be able to control it and live a normal life. As members of AA, we believe that alcoholism is a deadly illness. Many men and women who suffer from it find it hard to believe this. Alcoholics have to deal with people who see them as just useless and bad.

THROUGH COMING TO THE FELLOWSHIP OF ALCOHOLICS ANONYMOUS we found out how to stop drinking, and how to stay stopped. We have found that life without alcohol is not just OK, but that we can enjoy it. We were able to start to get better as soon as we stopped fighting the idea that we were alcoholics.

Here are a couple of questions to ask yourself -

When you drink, do you have little control over the amount you take?

When you honestly want to stop drinking, do you find you cannot?

If these are true for you, there's a good chance that you are alcoholic and have lost control over your drinking.

BUT if you can say that you are an alcoholic there is hope for you.

Today it may seem like the end of the world to you, but there are thousands of people in AA who can state that knowing and accepting that they were powerless over alcohol was not an end, but a beginning; the beginning of their recovery and the start of a new, useful and rewarding life.

AA has a simple programme that works. It is a down-to-earth programme designed BY and FOR alcoholics. If you honestly want to stop drinking above all else and are fully willing to follow this programme without qualification, you can have sobriety.

THE ONLY REQUIREMENT FOR AA MEMBERSHIP IS A DESIRE TO STOP DRINKING

This does not mean signing up, or paying money. You just come along to an AA meeting, where you will find people who have been through the same sort of things as you. Get to lots of AA meetings. That way you will hear different members telling their stories. Among them you will find people like you - people you feel understand you.

Our ability to stay away from that first drink depends on us taking care of mental and spiritual health. Staying sober goes on all the time. We have found our only sure - and enjoyable - course is to stay close to AA. That way we don't go back to our old destructive ways of thinking and behaviour and we share our experience with the newcomer.

At first some of us thought this was obsessive. Once we were sober we wanted to spend more time with our loved ones, to get ahead with careers, or hobbies.

Older, wiser members urged us to put our sobriety first. They pointed out that, in time, we would each find the balance that

was right for us. Without sobriety, the future held nothing but destruction of ourselves and everything around us; with sobriety, the world could once more open up for us.

Maybe you are still not sure you are an alcoholic.

In which case, a few meetings may help you to decide. All we ask is that you bring with you an open mind.

Why not give the AA programme a try?

We did, and it has worked for us.

THE AA PROGRAMME OF RECOVERY

The AA Programme of Recovery is summarised in the suggested Twelve Steps. These are set out in the book ALCOHOLICS ANONYMOUS (The 'Big Book'), which was written and based on the experience of the first hundred AAs to get sober in America.

HERE ARE THE TWELVE STEPS

1. We admitted we were powerless over alcohol - that our lives had become unmanageable.
2. Came to believe that a Power greater than ourselves could restore us to sanity.
3. Made a decision to turn our will and our lives over to the care of God *as we understood Him*.
4. Made a searching and fearless moral inventory of ourselves.
5. Admitted to God, to ourselves, and to another human being the exact nature of our wrongs.
6. Were entirely ready to have God remove all these defects of character.
7. Humbly asked Him to remove our shortcomings.
8. Made a list of all persons we had harmed, and became willing to make amends to them all.
9. Made direct amends to such people wherever possible, except when to do so would injure them or others.
10. Continued to take personal inventory and when we were wrong promptly admitted it.
11. Sought through prayer and meditation to improve our conscious contact with God *as we understood Him*, praying only for knowledge of His will for us and the power to carry that out.

12. Having had a spiritual awakening as the result of these steps, we tried to carry this message to alcoholics, and to practice these principles in all our affairs.

You may see the point of these steps straight away

On the other hand, they may seem completely alien to you, full of talk of God and wrongdoing. When we speak of God or spiritual awakening, we are not giving you a new theology or trying to put a new light or explanation on your own belief.

In AA there are as many different religious beliefs and interpretations as there are members. You only need to come to believe that a power greater than yourself exists and is much more capable of running your daily life than you have shown yourself to be; for some that power is the AA group, or the Fellowship as a whole.

A programme for living

If you are an alcoholic, sobriety is the most important thing in your life without exception. You may believe your job, or your home life, or one of many other things come first. But consider, if you do not get sober and stay sober, the chances are you won't have a job, a family, sanity or even life. If you are convinced that everything in life depends on your sobriety, you have much more chance of getting sober and staying sober. If you put other things first you are only hurting your chances.

In order to live without alcohol, most of us find that we have to live comfortably with ourselves, our conscience, and with the world. The Twelve Steps help us to do so. They help us to sort out our attitudes in areas which may always have been difficult for us - relationships with other people perhaps, or our attitude to class, money or responsibility. They help us get rid of guilt about the past and anxiety about the future.

ONLY YOU CAN DECIDE -

Are you an alcoholic?

To answer this question ask yourself the following questions and answer them as honestly as you can.

	YES	NO
1. Is drinking making your home life unhappy?	<input type="checkbox"/>	<input type="checkbox"/>
2. Does your drinking make you careless of your family's welfare?	<input type="checkbox"/>	<input type="checkbox"/>
3. Do you drink because you are shy with other people?	<input type="checkbox"/>	<input type="checkbox"/>
4. Is drinking affecting your reputation?	<input type="checkbox"/>	<input type="checkbox"/>
5. Do you drink to escape from worries or trouble?	<input type="checkbox"/>	<input type="checkbox"/>
6. Do you drink alone?	<input type="checkbox"/>	<input type="checkbox"/>
7. Have you lost time from work due to drinking?	<input type="checkbox"/>	<input type="checkbox"/>
8. Has your ambition decreased since drinking?	<input type="checkbox"/>	<input type="checkbox"/>
9. Has your efficiency decreased since drinking?	<input type="checkbox"/>	<input type="checkbox"/>
10. Is drinking jeopardising your job or business?	<input type="checkbox"/>	<input type="checkbox"/>
11. Have you ever felt remorse after drinking?	<input type="checkbox"/>	<input type="checkbox"/>
12. Are you in financial difficulties as a result of drinking?	<input type="checkbox"/>	<input type="checkbox"/>

	YES	NO
13. Do you turn to or seek an inferior environment when drinking?	<input type="checkbox"/>	<input type="checkbox"/>
14. Do you crave a drink at a definite time daily?	<input type="checkbox"/>	<input type="checkbox"/>
15. Does drinking cause you to have difficulty in sleeping?	<input type="checkbox"/>	<input type="checkbox"/>
16. Do you want a drink the next morning?	<input type="checkbox"/>	<input type="checkbox"/>
17. Do you drink to build up your self-confidence?	<input type="checkbox"/>	<input type="checkbox"/>
18. Have you ever had a complete loss of memory as a result of drinking?	<input type="checkbox"/>	<input type="checkbox"/>
19. Has your doctor ever treated you for drinking?	<input type="checkbox"/>	<input type="checkbox"/>
20. Have you ever been in hospital or prison because of drinking?	<input type="checkbox"/>	<input type="checkbox"/>

What's your score?

If you have answered YES to any one of the questions, there is a definite warning that you may be an alcoholic.

If you have answered YES to any two, the chances are that you are an alcoholic.

If you have answered YES to three or more, you are almost certainly an alcoholic.

Why do we say this? Only because the experience of hundreds of thousands of recovering alcoholics has taught us some basic truths about our symptoms - and about ourselves.
